

Managing Your Account

How do I delete my account?

Currently this is only done through the mobile app. However you can disable your account from the web.

- From the home screen tap on the account icon in the top right corner.
- Then tap the settings link and go to Account and click the Delete Account option
- You must validate your account by entering your current password.

Note: This will permanently delete your account and all data with it forever. If you just wish to temporarily deactivate it, select **Disable account** instead from the Account menu.

Unique solution ID: #1053
