

Managing Your Media

How do I add credits to my media posts?

If you'd like to give credit to other users on one of your media posts, you can do this by doing the following.

- View the media item you'd like to add credits to by going to your album, then clicking on that item.
- Once viewing that item in the media viewer, click the tag icon in the lower right corner.
- The credit list screen will open and there will be a + icon in the top right hand corner.
- Click the + icon and it will list your fans that you can select to give credits to.
- After selecting the users, click the checkmark to save the selections.

Note: It might take a moment for all the credits to show in the list and may have to refresh to see entire list.
