

# User Profiles

## Can I format the text in my profile headline?

You can use simple HTML tags to do standard formatting of the text in your headline.

Supported tags are:

Line breaks - `<br />` e.g. Break the line after this sentence. `<br />` Another sentence here.

Italics - `<i>` e.g. I want to `<i>italicize</i>` this word.

Bold - `<b>` e.g. The word `<b>bold</b>` is now bold.

Underline - `<u>` e.g. `<u>OfficialMe</u>` is awesome.
